Dear Sharon

I am pleased to advise that the Public School Review of Kojonup District High School has been completed. I endorse the report and am satisfied it will provide a basis for sustained school improvement.

I acknowledge the efforts of you and your staff in endeavouring to create the conditions for successful students. The areas your school and the review team validated for commendation and those for which there are recommendations for ongoing improvement are noted.

Following discussions, the next review process focusing on the student achievement and progress domain only, is scheduled for Term 3, 2025. This is viewed as a prudent, informed decision to validate the improvements you are seeking.

Should the school meet the Standard for these domains, a Public School Review, inclusive of all domains, is to be scheduled for 2027.

I understand that under your leadership, staff have developed shared beliefs about teaching and learning and that there is a clear commitment to evidence-based school-wide programs, explicit teaching, and consistent pedagogical practices. I also understand that the school is motivated to build on the positive NAPLAN performance of Year 3 students to ensure strong success across all year levels.

In response to the report, you are encouraged to contact your Director of Education, Dainon Couzic, to discuss school planning to reflect the substance and intent of the recommendations for improvement and the support available.

As stated in the initial correspondence, please make the report available to your staff and school community and upload it to your school website and/or Schools Online for a minimum period of 12 months.

I know you, your staff and school community will take the opportunity to use this report to continually improve outcomes for your students.

Yours sincerely

Steven Watson
